MCMP Samr.—B-15—1 NL4M/06—19-9-05—2,00,000.

Compared with the corresponding quarters of the previous year and of 1919-20, importations were less by 30.5 and more by 23.0 per cent., respectively, and clearances were less by 34.8 and 25.8 per cent., respectively. As compared with the corresponding period of the previous year, the decreased imports from the United Kingdom, Port Said, Tunis and Aden and increased imports from Massowah and Madras (Tuticorin) are noticeable.

4. Table II shows the quantity of sea-imported salt remaining in the warehouses at the close of the quarter as compared with the preceding four quarters:—

Table II.

Director of Public Health, Bengal.

## DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 28th December 1921.

**Summary.**—Practically no rain fell during the week. Harvesting of winter paddy and sowing of spring crops are nearly finished. The condition and prospects of the spring crops are fair. Light showers are urgently needed for their growth. The average price of common rice for the province has fallen by about 1·8 per cent. as compared with that of the previous week.

for Executive Engineer, Dacca Division.

## DEPARTMENT OF STATISTICS, INDIA.

## CALCUTTA TRADE FLUCTUATIONS.

THE following tables are intended to show the trade by all routes, i.e., by rail, river, canal, road, and sea, of the Calcutta block\* in certain selected articles during the seven months, April to October, 1921, as compared with the corresponding period of 1920 and 1919. The statistics have been compiled from returns furnished by the Collector of Customs, Calcutta, Railway Audit Offices, Steamer Companies, the Commissioners for the Port of Calcutta, the Collectors of the 24-Parganas and Howrah, and the Assistant Engineer, Calcutta Canals.

## General Summary.

**Imports.**—The imports of rice, including paddy†, into Calcutta\* by rail, river, canal, road, and sea (coastwise) during the seven months, April to October, 1921, amounted to 7,971,000 maunds, as against 5,564,000 maunds in the corresponding period of the preceding year,—an increase of 2,407,000 maunds or 43 per cent, being chiefly due to larger imports of rice from Burma. There was a decrease of 17 per cent in the imports of coal and coke (67,526,000 maunds as against 82,093,000 maunds a year ago). The value of the imports by rail, river, road, and sea (coastwise) of Indian cotton piecegoods showed a decrease of 7 per cent, the total value amounting to Rs. 6.19 lakhs as against Rs. 6.65 lakhs in 1920. The quantity of indigo imported during the seven months, April to October, 1921, decreased from 3,473 maunds last year to 1,136 maunds. The imports of raw jute amounted to 2,286,000 bales as against 3,078,000 bales,—a decrease of 792,000 bales or 25 per cent. The importations of gunny bags also showed a decrease of 86 million bags (183 million bags against 269 millions in the preceding year). The total imports of oilseeds (linseed and rape and mustard seed) decreased by 313,000 maunds, or 6 per cent, from 4,781,000 maunds to 4,468,000 maunds and those of sugar decreased by 182,000 maunds, or 35 per cent, from 521,000 maunds to 339,000 maunds. The imports of tea, on the other hand, increased from 1,281,000 maunds to 1,556,000 maunds or by 21 per cent.

**Exports.**—The value of the exports of cotton piecegoods, foreign, from Calcutta\* by all routes during the seven months, April to October, 1921, decreased by 21 per cent from Rs. 14.72 lakhs to Rs. 11.58 lakhs. The exports of gunny bags (including the exports by sea to foreign countries) decreased from 843 million to 615 million bags, but the shipments of gunny bags to other Indian ports increased from 23 to 37 millions in number in the period under review. The quantity of kerosene oil despatched from Calcutta and Budge-Budge by internal routes and by sea (coastwise) also increased from 3,199,000 maunds to 3,428,000 maunds, or by 7 per cent.

\* The Calcutta block consists of the town of Calcutta with Howrah and Kidderpore Docks.  
† One maund of paddy is equivalent to 25 seers of rice.

DEPARTMENT OF STATISTICS, INDIA,  
 January 7, 1922.

D. N. GHOSH,  
 Director of Statistics (offg.).

## DISTRICT REPORTS ON WEATHER AND CROPS

For the week ending on the 4th January 1922.

**Summary.**—Excepting light and scattered showers in parts of the Presidency and Burdwan Divisions, there was no rainfall throughout the Province. Reaping of winter paddy and sowing of spring crops are almost over. Prospects of standing crops are generally fair. The average price of common rice for the Province has fallen by about 1·5 per cent. as compared with that of the previous week.

Serial No.	District and subdivision.	Rainfall.	PRICE OF COMMON RICE, IN SEERS, PER RUPEE.		Character of the weather, condition of crops, etc.
			This week.	Previous week.

REMARKS—1. The above table is compiled from returns collected by the municipalities and submitted to the Director of Public Health by the Civil Surgeons, and in a few instances are obviously incomplete.

2. The vital statistics of municipalities with a population of less than 10,000 have been excluded from this statement and incorporated  
 3. The birth and death ratios per 1,000 per annum have been omitted from this statement according to the Government of India.  
 4. Figures for the different diseases are not available for the corresponding month of the previous year.

## RESOLUTION ON THE REPORT OF THE MAGISTERIAL ENQUIRY INTO THE OCCURRENCE AT HOWRAH ON THE 4TH NOVEMBER 1921.

### GOVERNMENT OF BENGAL.

#### POLITICAL DEPARTMENT.

CALCUTTA, THE 12TH JANUARY 1922.

RESOLUTION—No. 584P.

READ—

The report of the magisterial enquiry into the occurrence at Howrah on the 4th November 1921.

On the night of the 4th November last, there was a serious riot at Howrah in the course of which shots were fired by the police, and Govern-

ment have now received the report of the enquiry into the incident held by Mr. Prance, District Magistrate of Howrah.

The riot was divided into two distinct stages, and details of each are given in the report. The first consisted of an attack on the Assistant Magistrate and Assistant Superintendent of Police and a small body of police by a riotous mob coming from a Khilafat meeting. The mob overpowered the small police force and drove them into the thana, inflicting more or less severe injuries on several of them. The building was then besieged and bombarded with stones, and it was not until two shots had been fired into the air that the thana compound was cleared and the crowd retired to a short distance where they remained threatening to renew the attack. At this point the District Magistrate arrived, and under his instructions the police charged and dispersed the mob, which disappeared on the arrival of reinforcements of armed police. No serious injuries appear to have been caused in this charge.

The second stage was the attack on the police reinforcements which were summoned from the reserve lines to assist the thana police. The first body of police that left the lines comprised 20 unarmed constables carrying *lathis*. They were at once met by a big crowd which attacked them with stones and *lathis* and forced them to take refuge in a police barrack until the armed police arrived. The armed police consisted of 25 constables in small detachments under Inspector Gould and Sergeant Day. They were met by a threatening crowd which refused to disperse and attacked with a shower of stones. A certain number of shots were fired—the District Magistrate estimates between 5 and 10—and the mob dispersed. His Excellency in Council accepts the conclusion of the District Magistrate that no order to fire was given but only an order to charge, and that a small number of armed police lost their heads and fired in the excitement of the moment. A considerable proportion of the armed force were men with comparatively short period of service; they were surrounded by a threatening mob many times their number; and were faced with a shower of stones while some of their number had received very serious injuries. The Governor in Council regrets that their discipline was not sufficiently strong to prevent firing without orders, but he recognises that the circumstances in which they were placed were sufficient to try the discipline of much more seasoned men.

Eight men have been convicted for participation in the original attack upon the police and on the thana and have been sentenced to six months, rigorous imprisonment under section 147, I.P.C. and ordered under section 106, C.P.C. to execute bonds to keep the peace for one year after their release from Jail.

Ordered that this Resolution together with the magisterial report be published for general information.

By order of the Governor in Council,

H. L. STEPHENSON,

*Chief Secretary  
to the Government of Bengal.*

### Report of the magisterial enquiry into the occurrence at Howrah on 4th November 1921.

Enquiry opened on the 7th November and closed on the 13th November. The opening of the enquiry was proclaimed by beat of drum, inviting all who had any knowledge of the occurrence to appear and give evidence. On the 11th a second proclamation was made stating that the enquiry would close on the 12th unless the examination of witnesses appearing on the 12th could not be completed. Special notices were served on some members of the public as I was told they might be able to give useful evidence.

Of the 83 witnesses examined all except 8 were public servants and of the 8 witnesses who were not in Government employ only 2 witnesses gave evidence on material points. I attribute the failure of the public to come forward and give evidence to three reasons. First that the men who knew most about the occurrence were actually concerned in the occurrence and could not give evidence without incriminating themselves. Second that some of the men who might have given evidence are non-co-operators and abstained for this reason, *e.g.*, the volunteer leaders who tried to turn back the crowd from the south. Third an application had been sent to Government for the appointment of a mixed committee of enquiry and people may have been dissuaded from coming forward. A pleader who said he was watching my enquiry on behalf of the public stated that witnesses would not come forward unless a mixed committee were appointed. At a later stage of the enquiry he announced that as the majority of the members of the bar were of opinion that no member of the bar should watch the enquiry he retired in deference to their opinion.

From the evidence adduced before me and from what I saw with my own eyes I believe that what occurred was as follows:—

At about 9-30 P.M. on the evening of the 4th November Mr. Larkin, Assistant Magistrate, and Mr. Kelly, Assistant Superintendent of Police, hearing a noise on the maidan went out to see what was happening. On the maidan they separated, Mr. Larkin going to the left along the tram lines and Mr. Kelly to the right by the central road. Mr. Kelly had received orders from the Superintendent of Police to have 30 unarmed constables at Howrah thana to see that people went home quietly after the meeting and was on his way to the thana to carry out this order. On the maidan Mr. Kelly met a large party of volunteers and others. They were shouting and he asked them to move on but they crowded round him. The leader of the volunteers came up and asked what was the matter. Mr. Kelly told him that now the meeting was over the crowd should disperse. He agreed and walked down the road towards the thana with Mr. Kelly. At the junction of Avenue Road and Grand Trunk Road Mr. Kelly and the volunteer leader met Mr. Larkin who had come round more quickly by a longer route and two sergeants and another conversation with the leader of the volunteers took place. The leader spoke to the crowd and they began to move off towards the north. While this conversation was going on the Deputy Superintendent of Police, another sergeant and some constables with *lathis* came up. Just after the first crowd began to move off a second crowd came shouting from the south from the direction of Sibpur. Mr. Larkin went towards them and the Deputy Superintendent followed. Two leaders of the first party also ran forward and held up their hands and tried to stop the second party shouting telling them not to make a *golmal*. The second party did not listen and began to throw brickbats. Mr. Kelly and some constables who were behind were first struck by brickbats and then Mr. Larkin was hit on the head by a tile. A fight began on the road between the constables—about 20 armed with *lathis*—and the crowd. The police first drove back the crowd and according to Maulvi Muzibar Rahaman one man was knocked down and dragged into the thana compound and was beaten. Then the police were driven back and took refuge in the thana. Mr. Larkin was also taken to the thana. The fight continued at the gate and inside the thana compound and brickbats were thrown into the thana. While the fight was in progress information was given to the Superintendent of Police and the District Magistrate. Mr. Kelly ordered the alarm to be given at the police lines and that all available men armed and unarmed should turn out and proceed as quickly as possible to Howrah thana. Before the occurrence commenced by Mr. Larkin being struck by a tile, Sergeant Ottman had telephoned to the lines to get ready. Muzibar Rahaman says that he used the words “jaldi uthar armed police jaldi mangte hai.”

But this warning seems only to have reached some constables and no action was taken upon it, as Sergeant Day says that the first news he received was from Mr. Kelly and this message was sent while the attack on the thana was in progress.

While the thana was being attacked the Sub-Inspector in charge of Howrah thana issued two rifles to two constables and ten rounds of ammunition (buckshot). One of the constables fired a shot into the air and the crowd who were attacking the thana ran away. The constables pursued and arrested some men in the thana compound and some outside while running away. Previously three arrests were apparently made—one in Harcourt's Lane by orders of the District Deputy Inspector of a volunteer running away when the police first drove back the crowd after Mr. Larkin was hit, and two men at the gate of the thana compound during the early stages of the attack. Sergeant Belcher who had taken one of the rifles issued by the Sub-Inspector from a constable went out into the maidan and seeing a crowd, who did not disperse when he shouted to them, fired a shot in the air and they ran away. Maulvi Muzibar Rahaman deposed that he heard three shots. I can find no other evidence of the third shot and believe that the witness made a mistake on this point. Three cartridges issued from Howrah thana were used that night but the third was fired long afterwards a long way down the Sibpur road. The witness took refuge in Mr. Horan's quarters when the attack on the thana began and did not show himself again till about an hour later until after the armed police had arrived and marched off again. He says he did not see me, though I was standing in the open in the middle of the road for nearly half-an-hour. Constables were brought out from the thana by Mr. Kelly and were posted on the road on both sides of the thana gates. I reached the thana about 10-30. The first message I received said that it was impossible for me to reach the thana as it was then surrounded. I spoke to the Superintendent of Police and ascertained that all available police were being brought up from different directions. I waited a little while and again rung up the thana and ascertained that it was now possible to reach the thana. I found pickets of police posted on the Grand Trunk Road. A crowd was standing near the Cinema on the Grand Trunk Road throwing an occasional stone. I stood waiting for reinforcements in the road between the crowd and the police picket for about half-an-hour. I saw Mr. Larkin and sent him to hospital to have his head dressed. At about 11 P.M. Mr. Kelly pointed out that the crowd were arming themselves with bamboos from the scaffolding on the new Cinema building. As it seemed probable that they were doing this for the purpose of attacking the police, I thought it better to wait no longer, and after shouting to the crowd to disperse, I ordered the constables—about 25 men—armed with *lathis* to charge. The crowd were probably two or three hundred in number. Most of the crowd ran away when we charged. Mr. Kelly received two blows from *lathis*. A number of the crowd were hit by constable with *lathis* and knocked down, but no serious injuries appear to have been inflicted as, when I collected the constables after driving the crowd about 100 yards, no one remained lying on the ground. Five or ten minutes later the armed police—about 25 strong—under Inspector Gould came up and reported that there had been a fight on the way and that some shots had been fired. The Superintendent of Police had gone to Chandmari bridge and with the aid of the constables from Golabari had prevented any crowd coming over the Chandmari bridge or from Ticciapara by Belilios Road. He came up at this stage and met me on the road in front of the thana.

I now deal with the occurrence which had taken place while the armed police were coming from the police lines which are situated on the Grand Trunk Road about two miles to the south of Howrah thana.

About 10-15 Sergeant Day received a telephone message from Mr. Kelly saying that all available armed and unarmed constables should be brought as quickly as possible to Howrah thana as a riot was taking place there. He reported to Inspector Gould, who was in command of the police at the lines and at once sounded the alarm.

Inspector Gould telling Sergeant Day to follow with the men left the lines on his bicycle alone. On reaching the tram terminus, Inspector Gould says that he was stopped by a man with a *lathi* and got off his bicycle. As he was in the act of drawing his revolver the man threw his *lathi* at him and hit him on the leg and then ran off to join a crowd standing in a lane shouting "maro." Inspector Gould then proceeded a short distance towards Sibpur thana but was confronted by a shouting crowd which he

estimated at some 3,000 men. They shouted "maro—police saleh." The Inspector took refuge in the compound of Mrs. Kearley's house and was joined by one constable armed with a rifle and one constable who had a *lathi*. The crowd threw stones into Mrs. Kearley's compound and house and broke some windows, but did not try to enter the compound.

The first party of constables to leave the lines were unarmed constables carrying *lathis*. They were only 20 in number and meeting a big crowd who threw stones and attacked them with *lathis* they took refuge in a police barrack where they remained till the armed police came. Five rounds of buckshot were made over to each armed constable before he left the lines. Next about 15 armed constables started in small detachments followed by Sergeant Day with about 10 armed constables. Sergeant Day says that his shoe came off and he stopped to pick it up and became separated from his men who went on. He was surrounded by a crowd with *lathis* and men throwing stones and ran into Sergeant Gould's old house and stopped there some minutes and then came out and proceeded, but he was again attacked and had to run into a lane and stay there some minutes. He then came out and went on and caught up Inspector Gould and his party. Inspector Gould had come out of Mrs. Kearley's compound on the arrival of some armed constables and had collected about 20 armed men. Inspector Gould found the way blocked by a big crowd. He ordered them to disperse but the reply was a shower of stones. Inspector Gould then gave the order charge. A general fight took place and several shots were fired by constables without orders. Inspector Gould states emphatically that he gave no order to fire. Of the 21 constables examined who took part in the fight 10 men say that the order given was "charge", 6 men say that the order was "charge—load—fire", 2 men say that the order was "load—fire", 2 men say "charge—fire" and 1 man says "unload—fire". On the evidence I believe that the only order given was charge and that in the fight some constables lost their heads and fired. Inspector Gould, an old soldier—is unlikely to have given an order "charge—load—fire". One constable died in hospital as the result of the injuries received in the fight. The Civil Surgeon held *post-mortem* and extracted a pellet from the brain and reported that death was due to "injuries to the brain due to gun shot". I sent the pellet received from the Civil Surgeon for examination by the Superintendent, Ammunition Factory, Dum Dum, who was of opinion that the pellet was a buckshot, but could not give any opinion as to what weapon it was fired from. There is no evidence that the crowd were in possession of fire-arms, and in these circumstances it must be presumed that the pellet was one of the buckshot fired by the police. Two of the civil police to whom rifles were issued at the lines received serious injuries and had their rifles taken from them by the crowd. I examined them in hospital at the close of the enquiry. Both received many *lathi* blows and one had his arm broken by a *lathi*. Another unarmed constable was stabbed and beaten with *lathis*. These three men appear to have received their injuries before the more serious fight began. In the fight 7 constables were struck by stones and received blows from *lathis*, but their injuries were not serious. It is difficult to ascertain accurately the number of shots fired by the police. Mr. Kelly on checking the ammunition at the lines found 19 rounds not returned. This figure gives the maximum of possible shots fired, but as Sergeant Day found 3 rounds next day on the scene of the firing it is extremely possible that other rounds were dropped and not picked up.

Inspector Gould was of opinion that about 6 shots were fired and Mr. Nicholson, who lives in Mrs. Kearley's house opposite which the fight took place and who watched the occurrence from a window, estimates the number at 5 or 6. It would, however, be very difficult for a witness to give an accurate estimate on this point. Three constables admit that they fired 1 shot each and 22 armed men took part in the fight. On the evidence it is probable that between 5 and 10 shots were fired and the remaining cartridges dropped on the road. As to the casualties of the rioters no evidence was produced before me. When the Superintendent of Police and I visited the scene of the fight no injured were found. Mr. Nicholson says that after the police marched off he saw a body in white clothes lying in the road and some 10 minutes later some Indians came and carried the body away. Two funerals were held by volunteers at which it was said the men had been killed by the police; but no report of their death was given to any official and the cause of death cannot be ascertained with certainty. Six men with gunshot wounds were admitted into a Calcutta hospital, of whom two have

been arrested and four are still in hospital. As these wounded men will be accused in a criminal case, I have not examined them so as not to prejudice their defence in the regular trial which will shortly take place. It will be decided during the trial whether they received their wounds at the riot or not. There is no reason to believe that more than these eight men received gunshot wounds and the nature of the injuries of the two dead men have not been ascertained.

After the armed police had fired the crowd dispersed and no opposition was offered on their way to Howrah thana, though a few stones were thrown from lanes leading out of the Grand Trunk Road.

The Superintendent of Police and I marched with the armed police from Howrah thana to the scene of the fight and back. Crowds were seen in the side lanes, but dispersed on the threats of advancing against them. One man was arrested with a big *tathi* which he refused to give up. When the police were halted opposite a side lane Sergeant Belcher fired a shot in the air to hasten the dispersal of a crowd which were standing up the lane throwing stones. He fired before the Superintendent of Police or I, who were a few yards in front, could prevent him. As a consequence of his firing one of the armed constables also fired. No one appears to have been hit by either of these two shots which were unnecessarily fired without orders. It should be added that of the 20 rounds of ammunition issued by the Sub-Inspector, Howrah, 17 were received back unfired and two were fired by Sergeant Belcher, one on the maidan and one up the side street and one was fired into the air by the constable at Howrah thana. The stock of ammunition at Howrah thana is separate from the stock at the lines and the one shot fired by the constable up the side lane must be deducted from the shortage on 19 found by Mr. Kelly, leaving a possible maximum of 18 fired in the fight at the Sibpur cross roads.

On the evidence it is impossible to decide what was the immediate cause of the riot. Maulvi Muzibar Rahaman says that he met a volunteer running who told him that a volunteer had been arrested. He did not know the name of the volunteer who gave him this information and was not told the name of the man supposed to have been arrested. I believe that this occurred before any occurrence had taken place and before any arrest had been made. On this evidence it is not impossible that some false report of an arrest was spread and excited the crowd so that they attacked the police. The immediate cause of the riot was the inability of the Khilafat volunteers to control the crowd what they had collected. Two Khilafat leaders ran forward to try and stop the crowd coming from Sibpur, but their efforts were unsuccessful and stone throwing at once began. Probably rumour of what had occurred near Howrah thana spread and resulted in the gathering of a crowd whose object was to prevent the police coming up from the reserve lines at Sibpur.

The armed police during the fight fired without orders, and showed a lack of discipline which is much to be regretted. It is not possible to say whether a charge would have been sufficient to disperse the crowd. Had it failed Inspector Gould would have clearly been justified in ordering his men to fire as he had received orders to proceed to Howrah thana where a riot was in progress.

The occurrence clearly shows the weakness of the position at Howrah in the situation of the reserve lines where the armed police are quartered at a distance of two miles from the centre of the town. Neither the Magistrate nor the Superintendent of Police who live in the centre of the town could reach the armed police until after the fight as the rioters were between them and the police lines.

B. C. PRANCE,  
*District Magistrate, Howrah.*

**ADDENDUM AND CORRIGENDUM TO THE RESOLUTION  
No. 1514I., DATED THE 1st JUNE 1920 REGARDING THE  
RECONSTITUTION OF THE STANDING WATERWAYS  
ADVISORY COMMITTEE.**

**GOVERNMENT OF BENGAL.**

**IRRIGATION DEPARTMENT.**

**ADDENDUM AND CORRIGENDUM.**

*No. 11.—The 16th January 1922.*—The following addendum and corrigendum to the Resolution No. 1514I., dated the 1st June 1920, published at pages 650-51 of the Supplement to the *Calcutta Gazette* of the 2nd June 1920 regarding the reconstitution of the Standing Waterways Advisory Committee in Bengal are published for information :—

- I. Under the list of members cited in the resolution the following should be added :—

The Superintending Engineer, Southern Circle.

The Chief Engineer, on special duty, in connection with the Grand Trunk Canal.

- II. In line 27 of paragraph 3 of the resolution for the word "Under Secretary" *read* "Personal Assistant to the Chief Engineer and Secretary."

By order of the Governor in Council,

G. T. HUNTINGFORD,

*Secretary to the Government of Bengal (offg.).*

**RESOLUTION ON THE ADMINISTRATION REPORT ON THE  
HOWRAH BRIDGE FOR THE YEAR 1920-21.**

**GOVERNMENT OF BENGAL.**

**MARINE DEPARTMENT.**

CALCUTTA, THE 16TH JANUARY 1921.

**RESOLUTION—No. 179.**

READ—

The Administration Report on the Howrah Bridge for the year 1920-21.

1. The year under review opened with a deficit on Revenue Account of Rs. 2,82,899.

2. **Income.**—The income of the bridge during the year was Rs. 4,16,265 as against Rs. 3,91,254 of the preceding year.

3. **Expenditure.**—The expenditure for the period was Rs. 3,60,875 as against Rs. 3,51,994 of last year. The increase in expenditure was chiefly due to increased cost of establishment, coal, stores and repairs.

4. The difference between "Income" and "Expenditure", viz., Rs. 55,390 helped to decrease the deficit on Revenue Account which was reduced to Rs. 2,27,509 on 31st March 1921.

5. The bridge was opened during the year on 317 occasions, 52 being day openings and 265 night openings. The number of vessels that passed through the bridge while it was open during 1920-21 and the preceding five years is given below :—

	1920-21.	1919-20.	1918-19.	1917-18.	1916-17.	1915-16.
Sea-going vessels ...	67	48	21	60	61	80
Inland steamers and flats ...	2,637	2,173	2,590	2,345	2,806	2,704
Steam-tugs and steam-launches ...	931	869	914	773	886	897
Port Commissioners' vessels ...	53	78	59	39	27	39
Government steamers and flats ...	11	2	8	7	9	9
<b>Total ...</b>	<b>3,699</b>	<b>3,170</b>	<b>3,592</b>	<b>3,224</b>	<b>3,789</b>	<b>3,729</b>

6. There were 16 accidents during the year as compared with 37, 35, 39 and 17 in the four preceding years.

By order of the Governor in Council,

H. E. SPRY,

*Secretary to the Government of Bengal (offg.).*

**CORPORATION OF CALCUTTA.**

**NOTICE.**

In compliance with the provisions of section 570 of the Calcutta Municipal Act, 1899, it is hereby notified for general information that the following amended rule 3 of the Provident Fund Rules, made by the Corporation of Calcutta under section 73 (c) of the Calcutta Municipal Act, has been sanctioned by the Government of Bengal in their letter No. 1 L.S.-G., dated the 3rd January 1922.

J. N. GUPTA,

*Chairman of the Corporation.*

CENTRAL MUNICIPAL OFFICE, *the 10th January 1922.*

Amended rule 3 of the Provident Fund Rules of the Corporation of Calcutta :--

3 (1) Every Municipal Officer or servant (other than those who are contributing towards pension under the Pension Rules of the Corporation and daily labourers) who is now or may hereafter be in receipt of not less than Rupees 25 per month (as salary) in the service of the Corporation, shall be subject to and governed by these Rules and Regulations and shall sign an agreement in the form annexed to these Rules and Regulations.

(2) Every Municipal servant (other than those who are contributing towards pension and daily labourers as aforesaid) in the service of the Corporation, who is or may hereafter be in receipt of less than Rupees 25 per month but not less than Rupees 15 per month, as salary, shall have the option of becoming a subscriber to the Provident Fund and be subject to and governed by these Rules and Regulations.

Provided that no such servant after he has once exercised his option of becoming a subscriber as aforesaid shall be permitted to withdraw from the Fund so long as he continues in the service of the Corporation.

(3) Notwithstanding anything contained in this rule the General Committee may, if they think fit, in their absolute discretion, at any time admit any other officer or servant to the benefits of the Fund, and nothing in this rule shall prevent any officer or servant of the Corporation who is contributing towards pension or who is excepted under section 73, clause (c) from making voluntary contribution to the Provident Fund as is hereinafter provided in rule 5, clause (3).

for Subdivisional Officer, P. W. D., Faridpur.

## DISTRICT REPORTS ON WEATHER AND CROPS

For the week ending on the 11th January 1922.

**Summary.**—Some scattered showers fell only in a few places of West and North Bengal. Harvesting of winter paddy is still continuing in some places. Transplantation of summer rice is progressing. Sowing of spring crops is completed; rain is much needed for their growth. Preparation of fields for *aus* paddy and jute has commenced in some Eastern Bengal districts. The average price of common rice for the Province has fallen by about 2·7 per cent. as compared with that of the previous week.

Serial No.	District and subdivision.	Rainfall.	PRICE OF COMMON RICE, IN SEERS, PER RUPEE.		Character of the weather, condition of crops, etc.
			This week.	Previous week.	
1	2	3	4	5	6
		Inches.			
1	24-PARGANAS	Nil	5½	5½	Harvesting of <i>aman</i> paddy nearly finished. Effect of weather on the crops is good. Fodder and water are sufficient.
	Diamond Harbour.	Nil	7½	6½	
	Barrackpore	Nil	6	6	
	Barasat ...	Nil	6½	5½	
	Basirhat ...	Nil	7	7	
2	NADIA ...	Nil	7	6½	Harvesting of <i>aman</i> paddy is nearly finished. <i>Rabi</i> crops are suffering for want of rain. Cultivation of crops is being hampered. Rain is badly wanted.
	Kushtia ...	Nil	6½	6½	
	Meherpur ...	Nil	8½	8½	
	Chuadanga ...	Nil	8	8	
	Ranaghat ...	Nil	6	6	
3	MURSHIDABAD	Nil	7	7	Harvesting of winter paddy continues. Prospects of standing crops are fair. More rain is needed for <i>rabi</i> crops. Fodder is sufficient. No large import and export of rice.
	Lalbagh ...	Nil	7	7	
	Jangipur ...	Nil	7½	7½	
	Kandi ...	Nil	8	7½	
4	JESSORE ...	Nil	8	8	Weather seasonable. Harvesting of winter rice continues. Prospects of standing crops are fair. Export of paddy is reported from Bongaon and Jhenidah subdivisions. Fodder and water are sufficient.
	Jhenidah ...	Nil	9	9	
	Magura ...	Nil	9	9	
	Narail ...	Nil	8½	8½	
	Bongaon ...	Nil	7½	8	
5	KHULNA ...	Nil	8	8	Water is sufficient. Harvesting of <i>aman</i> paddy is going on. Prospects of standing crops are good in the greater part of the district.
	Satkhira ...	0·05	8	8½	
	Bagerhat ...	Nil	8	8	

Serial No.	District and subdivision.	Rainfall.	PRICE OF COMMON RICE, IN SEERs, PER RUPEE.		Character of the weather, condition of crops, etc.

Taken as a whole the statement possesses a relative value, although the figures for individual towns probably only approximate to the actual in a proportion of cases in the returns for districts as ordered in Bengal Government, Municipal Department, letter No. 118San., dated the 8th February 1918. Education Department, letter No. 93, dated the 26th March 1918.

CHAS. A. BENTLEY,  
Director of Public Health, Bengal.

## RESOLUTION ON THE ADMINISTRATION REPORT OF THE COMMISSIONERS FOR THE PORT OF CALCUTTA FOR THE YEAR 1920-21.

### GOVERNMENT OF BENGAL.

#### MARINE DEPARTMENT.

CALCUTTA, THE 17TH JANUARY 1922.

#### RESOLUTION—No. 192Marine.

READ—

The Administration Report of the Commissioners for the Port of Calcutta for the year 1920-21.

**General Features of the Administration.**—The year under review completed the 50th year of the life of the Trust, and was marked by an important

change in the administration of the Port by the passing of an amending Act, authorizing the appointment of a whole-time salaried Chairman and a Deputy Chairman in place of a part-time Chairman and a Vice-Chairman. The gross tonnage visiting the port during the year approximated to that of the best pre-war years. The following statistics of traffic show the trade of the port as compared with the previous seven years :—

	1913-14.	1914-15.	1915-16.	1916-17.	1917-18.	1918-19.	1919-20.	1920-21.
	Tons.	Tons.	Tons.	Tons.	Tons.	Tons.	Tons.	Tons.
I. Net Tonnage of the Port ...	4,256,987	3,714,344	2,967,798	2,804,680	2,094,011	2,292,462	2,941,846	4,017,514
II. Jetties Imports ...	1,186,797	917,978	788,431	686,010	653,693	574,833	713,746	684,990
III. Docks Imports ...	613,576	700,133	570,997	444,210	363,383	482,403	653,066	413,357
IV. Docks General Exports ...	1,231,589	920,659	1,034,985	1,185,159	995,112	1,097,562	1,146,479	1,133,719
V. Docks Coal ...	3,017,180	2,635,805	1,610,645	1,994,528	1,614,993	1,333,285	2,264,976	3,046,400

**Income.**—The income for the year was the highest attained in the history of the Trust, being Rs. 2,66,08,052 against Rs. 2,23,55,614 of the preceding year. The chief increases occurred under the heads Jetties, Rentable lands and buildings, Wet docks and River dues.

The war surcharges were withdrawn from 31st March 1920, but in addition to other measures it was found necessary to impose a special scale of storage or rent charges from April 1920 to ensure the rapid removal of goods and thus to avoid congestion in the transit sheds.

**Expenditure.**—The total disbursements for the year, including a special appropriation of Rs. 25 lakhs to meet the depreciation of Sinking Fund investments amounted to Rs. 2,51,61,205 as against the revised estimate for the year of Rs. 2,41,91,945 and the actual expenditure of the preceding year of Rs. 2,25,51,875. The actual expenditure appreciably exceeded the revised budget estimates under the following heads :—

	Actual.	Revised estimate.	Increase.
	Rs.	Rs.	Rs.
Control ...	17,37,143	16,69,805	67,338
Jetties ...	21,31,121	20,74,163	56,958
Port ...	13,07,245	11,76,882	1,30,363
Port Approaches ...	14,52,222	12,87,349	1,64,873
Wet Docks ...	51,86,818	48,65,518	3,21,330
Interests and Sinking Fund charges ...	62,60,366	58,39,624	4,20,742
Difference on exchange ...	2,26,213	1,00,000	1,26,213

**Jetties.**—The tonnage handled at the Jetties was 684,990 tons in 1920-21, as compared with 713,746 tons in 1919-20. The decrease of 28,756 tons was attributable almost entirely to the high proportion of iron and steel and machinery in the cargoes dealt with. There was, however, a very marked increase in the earnings of the Jetties, the amount for the year being Rs. 62,16,693 against Rs. 22,44,027 in the preceding year. The increase was due chiefly to the higher rent charges; but each berth in use was utilised on average for 347 days during the year compared with 265 days during 1919-20. The unprecedented number of heavy lifts brought out by import steamers greatly reduced the rate of discharge.

**Docks.**—One thousand one hundred and thirty-three vessels were berthed at the docks during the year under review as against 966 in the previous year. The tonnage of the Docks traffic was 413,357 tons imports and 4,180,119 tons exports, as against 653,066 and 3,411,455. There was a fall in the importations of rice and paddy and Java Sugar and a remarkable increase in the exports of coal.

**Inland Vessels Wharves, Budge-Budge.**—There was a small decrease in the income from the Inland Vessels Wharves as compared with the previous year mainly due to a diminished traffic in rice and paddy, grain, seeds and betelnuts and in building materials.

One hundred and ninety-five vessels were berthed at Budge-Budge Petroleum Wharf during the year as compared with 150 in the preceding year.

**Tea Warehouse.**—The trade in tea decreased by about 25 per cent. in comparison with that of last year and the receipts were less by nearly Rs. 1 lakh chiefly under the head of storage charges.

**Navigable Channels.**—An important feature of the year was the extension of the boundaries of the port proper in a northerly direction from the present limits at Cossipore to Konnagore, while the limits of the navigable river and its approaches were extended north as far as Kalna in the district of Burdwan. It is anticipated that these developments will ensure in the future a more complete and effective control of the river channel. The river channels between the Sandheads and the Port were maintained in a satisfactory condition.

**Night Navigation.**—Owing to the heavy programme of work the annual overhaul of the gas and channel buoys was not completed by the end of the year, but satisfactory progress was made.

**Capital Works.**—The chief capital works in progress during the year were :—

1. King George's Dock. The commencement of this work was made and a commemoration stone was laid by His Royal Highness the Duke of Connaught on the 2nd February 1921.

2. Garden Reach riverside berths.

3. Reconstruction of No. 3 Calcutta Jetty.

4. The Rangoon Passenger Shed or Dharmasala, which was completed towards the end of the year. The greater part of the cost of this building was defrayed by Rai Mukhram Kanuria Bahadur.

5. Several important additions were made to the Commissioners' fleet of vessels. Good progress was made with a large new suction dredger named the *Gunga*, and a powerful new tug the *Sir Fredrick Dumayne*, to replace the *Retriever*, was under construction.

**Capital Account.**—The total liabilities of the Trust on capital account at the close of the year including the outstanding portion of the Government loan and the debenture loans still due for repayment, less the value of the assets of the Sinking Fund, amounted to Rs. 10.42 crores, while the total assets aggregated Rs. 15.38 crores including a sum of Rs. 3.28 crores spent on works in progress.

**General.**—The amending Act of 1920 providing for a whole-time salaried Chairman which became law in October 1920, was not brought into effect till after the close of the year 1920-21. The Hon'ble Sir Charles Stevenson-Moore, K.C.I.E., C.V.O., I.C.S., vacated the appointment of Chairman on the 6th May 1920 and was succeeded by the Hon'ble Mr. F. J. Monahan, I.C.S., till the 16th December 1920 and then by Mr. D. H. Lees, I.C.S. Mr. S. C. Stuart-Williams continued throughout the year to hold the post of Vice-Chairman.

The Governor in Council desires to thank these gentlemen for their successful administration of the Trust.

By order of the Governor in Council,

H. E. SPRY,

Secretary to the Government of Bengal (offg.).

DEPARTMENT OF AGRICULTURE, BENGAL.

**First Forecast of the Wheat Crop of Bengal, 1921-22.**

(NOTE.—On an average of the five years ending 1919-20, the area under wheat in Bengal has represented some 0·4 per cent. of the total area under wheat in India. The ratio of the irrigated wheat acreage to total wheat acreage in (a) British India, and (b) in the territory now reported on, has in the five years ending 1919-20, averaged (a) 42·3 and (b) 16·0 per cent., respectively.)

**Explanatory.**—Three forecasts of the wheat crop are published. This forecast deals only with the area sown and the general condition of the crop in its early stages.

**Acreage.**—According to the estimates of the District Officers, the total area sown amounts to 124,800 acres against 114,300 and 116,900 acres reported, respectively, in the corresponding and final forecasts of last year.

**Character of the season.**—The rainfall in September and October was generally defective throughout the Province, but the moisture left in the soil was sufficient for the preparatory tillage and for the sowings of the crop which commenced generally in the normal time. Since then, complete drought has prevailed and the present condition is reported to be only fair.

G. EVANS,

*Director of Agriculture, Bengal.*

CAMP PABNA, *the 15th January 1922.*

## APPENDIX I.

## First Forecast of the Wheat Crop of Bengal, 1921-22.

District.	Estimated normal area under the wheat crop.	Estimated area under wheat.		Date on which the sowing of the crop was begun this year.	Remarks by District Officers.
		Last year (1920-21).	This year (1921-22).		
	Acres.	Acres.	Acres.		
Nadia ...	23,100	12,500	11,100	Middle of November ...	The decrease in area is due to want of rain at sowing time. The sowings were almost normal. The growth of the crop is being retarded for want of rain. The condition of the crop is fair.
Murshidabad ...	69,300	22,300	21,600	October to November ...	The sowings were normal. The weather has not been favourable. The condition of the crop is fair.
Jessore ...	2,300	800	900	Ditto ...	The sowings were normal. The weather has not been favourable. The condition of the crop is poor.
Burdwan ...	2,000*	2,000*	2,000*	End of October to beginning of November.	The sowings were normal. The weather has not been favourable for want of rain. The condition of the crop is fair.
Birbhum ...	4,100	3,000	3,100	Middle of November ...	The sowings were normal. The weather has not been favourable. The condition of the crop is fair.
Bankura ...	3,600*	3,600*	2,500	End of October ...	The sowings were normal. The weather has not been favourable. The condition of the crop is poor.
Midnapore ...	900	800	800	First part of November	The sowings were normal. The weather has been favourable. The condition of the crop is fair.
Hooghly ...	2,400	1,700*	1,700*	Beginning of November	The sowings were late. The weather and the general condition of the crop have been fair.
Rajshahi ...	18,600	8,300	9,300	November ...	The sowings were normal. The weather has been favourable. The condition of the crop is fair.
Dinajpur ...	1,400	1,300	1,300	By the end of October.	The sowings were normal. The weather has not been favourable. The condition of the crop is fair.
Jalpaiguri ...	800	600	500	First week of November.	The sowings were normal. The weather has been favourable. The condition of the crop is fair.
Darjeeling ...	4,500	2,500	2,500	Third week of November.	The sowings were normal. The weather and the condition of the crop have been fair.
Rangpur ...	3,000	3,400*	3,400*	Beginning of November	The sowings were normal. The weather has been favourable and the condition of the crop is good.
Bogra ...	100	300	300	Middle of November ...	The sowings were normal. The weather has not been altogether favourable for want of rain. The condition of the crop is fair.
Pabna ...	16,000	7,000	6,200	Ditto ...	The sowings were normal. The weather and rainfall conditions have not been favourable to the growth of the crop. The condition of the crop is unsatisfactory.
Malda ...	60,000	40,000	51,000	End of October ...	The sowings were normal. The weather has not been favourable. The condition of the crop is fair at present.
Dacca ...	4,100	4,200	3,500	Middle of November ...	The sowings were normal. The weather has been favourable except in the Manikganj subdivision. The condition of the crop is fair.
Mymensingh ...	500	...	200	Beginning of November.	The sowings were normal. The weather has been favourable and the condition of the crop is fair.
Faridpur ...	2,700*	2,600	2,900	.....	Ditto ditto.
Total Bengal ...	219,400	116,900	124,800		

\* Conventional area.

### MONTHLY WEATHER AND CROP REPORT OF BENGAL FOR DECEMBER 1921.

**I. Character of the Season.**—Except for a few scattered showers in three districts, there was no rainfall throughout the rest of the province.

**II. Progress of Agricultural Operations.**—Harvesting of winter paddy was much advanced during the month. Sowing of spring crops was in progress but rain was urgently needed for their growth in some West Bengal districts.

**III. State of Standing Crops.**—The condition of standing winter rice and spring crops was on the whole satisfactory but the spring crops are likely to suffer from continued drought.

**IV. Prospects and Probable Outturn.**—The prospects of spring crops were generally promising.

**V. Damage to Standing Crops.**—Prolonged drought was reported to have caused some damage to spring crops in parts of West Bengal.

**VI. Condition of Agricultural Stock.**—Condition of live-stock was on the whole fair. Sporadic cattle-disease was reported from seven districts only.

**VII. Failure of Pasturage and Fodder.**—No scarcity of fodder is reported from any parts of the province.

**VIII. Prices of Food-grains.**—During the second-half of the month under review the prices of common rice of the cheapest quality rose in six districts, fell in thirteen and remained stationary in the rest of the province. The prices in the different districts varied from 5 seers to 9 seers a rupee.

**IX. Condition of Agricultural People.**—The condition of the agricultural population was fair on the whole.

G. EVANS,

Director of Agriculture, Bengal.

DACCA, the 20th January 1922.

## DISTRICT REPORTS ON WEATHER AND CROPS

For the week ending on the 18th January 1922.

**Summary.**—Except for scattered showers in a few places of some western and northern districts, there was no rainfall throughout the Presidency. Transplantation of summer rice is proceeding. Harvesting of mustard and potatoes has commenced. Prospects of standing crops are generally fair but rain is badly needed for their growth, especially in some western districts. Preparation of fields for autumn crops has commenced in some Eastern Bengal districts. The average price of common rice for the Province has fallen by about 1·37 per cent. as compared with that of the previous week.
